Anjesh Kumar

Senior DevOps Engineer

📧 anjeshvaishnav@gmail.com | 📱 +91-8818059317 | 📍 Gurugram, India | 💼 linkedin.com/in/anjeshvai/

Professional Summary

DevOps Engineer with **6.5+ years** of expertise in Cloud Infrastructure, Containerization, Automation and Migration. Proven track record in architecting and implementing scalable solutions using **Kubernetes, Docker, Helm, Terraform, and Ansible** across multi-cloud environments **(GCP, AWS, Azure)**. Certified professional (**CKA, KCNA, GCP Professional Cloud Architect, Terraform Associate**) with demonstrated success in leading **migrations**, optimizing **Gitlab CI/CD pipelines** and reducing operational costs through automation. Actively expanding expertise in **cloud-native AI Services**.

Technical Skills

Containerization & Orchestration	Kubernetes, Docker, Helm, GKE
Infrastructure as Code	Terraform, Ansible, Ansible Tower
CI/CD & DevOps	Azure DevOps Pipelines, GitLab CI/CD
Cloud Platforms	GCP, AWS, Flexible Engine, Azure, On-Premises
Monitoring & Logging	ELK Stack, Prometheus, Grafana, CloudWatch
Scripting & Programming	Bash, Python (basic), YAML
Version Control	Git, GitHub, GitLab
Collaboration & ITSM	Jira, Confluence, ServiceNow
Other Technologies	RESTful APIs, Linux Administration, AD, VMware vSphere

Professional Certifications

- **GCP Professional Cloud Architect**
- **Certified Kubernetes Administrator (CKA)**
- **Kubernetes and Cloud Native Associate (KCNA)**
- **HashiCorp Certified: Terraform Associate**

Professional Experience

Orange Business | *Senior Consultant - Automation*

June 2023 – Present | Gurugram, India

Applications: SIA, STAPLE, PORTEX, HIGHLIGHTER, RDC

Key Achievements:

- Spearheaded **DevOps** initiatives, reducing deployment time by **40%** via optimized **CI/CD pipelines**.
- Architected and executed **multi-application migrations** to on-prem and Kubernetes env with **zero downtime.**
- Managed **5+ production Kubernetes clusters** ensuring high availability and security compliance
- Implemented **Helm-based deployments** improving release consistency and rollback capabilities
- Automated **SSL certificate management** and renewal processes, eliminating manual intervention
- Led **infrastructure troubleshooting** and incident resolution, maintaining **maximum uptime.**

Technologies: Kubernetes, Docker, Helm, Terraform, Ansible, Gitlab, Bash

Jio Platforms Limited (Reliance Industries) | *DevOps Engineer*

October 2021 – June 2023 | Mumbai, India

Applications: Jio Meet, Jio Events

Key Achievements:

- **Led end-to-end migration** of Jio Meet from on-premises infrastructure to **GCP GKE**.
- Designed and provisioned **scalable GCP infrastructure** using Terraform with **IaC best practices**
- Implemented **logging and monitoring** using ELK Stack, Prometheus, Grafana, reducing MTTR by **50%**
- Deployed **Jio Events static website** on Google Cloud Storage with CDN.
- Optimized **GKE cluster configurations** including autoscaling, resource quotas and pod security policies
- Achieved **30% cost reduction** through GCP resource optimization and rightsizing initiatives.
- Automated **build and release pipelines** using Azure DevOps, reducing deployment time from hours to minutes
- Configured and managed **Squid Proxy** for secure internet access and traffic filtering

Technologies: GCP, GKE, Terraform, Docker, Kubernetes, Azure DevOps, ELK, Prometheus, Grafana

---

HCL Technologies Limited | *Senior Analyst – DevOps Engineer*

July 2019 – October 2021 | Noida, India | Client: AbbVie Inc.

Key Achievements:

- Developed **Ansible playbooks** for infrastructure automation across AWS and on-premises environments
- Automated provisioning of **AWS resources** (EC2, VPC, S3, IAM, ELB) using Terraform and Ansible
- **Decommissioned 500+ EC2 instances** and **3000+ EBS volumes** through pipelines, saving **$200K+ annually**
- Implemented **AWS account provisioning** automation using Terraform for multi-account environments
- Expanded **Ansible Tower** from single node to **multi-node cluster** architecture for high availability
- Created **Azure DevOps pipelines** with Terraform and Ansible Tower REST API integration
- Automated agent installations and infrastructure support tools (IPAM, Checkpoint) reducing manual effort by **70%**
- Managed **Active Directory** and **VMware vSphere** infrastructure using Ansible automation

Technologies: AWS (EC2, VPC, S3, IAM, ELB), Terraform, Ansible Tower, Azure DevOps, VMware, ServiceNow

---

Awards & Recognition

- 🏆 **Jio Spotlight Award** for Outstanding Performance (2022)
- 📚 **Qualified GATE 2017** (Graduate Aptitude Test in Engineering)
- 📚 **Qualified UGC NET 2019** (National Eligibility Test)

Education

M.Tech in Computer Engineering

J.C. Bose University of Science and Technology, YMCA, Faridabad

August 2017 – June 2019

B.Tech in Computer Science

UIET, Kurukshetra University, Kurukshetra

August 2013 – June 2017
